NA Household Cluster % 42%  
Cases linked to household or congregate living transmission. This percentage has been consistent for several weeks

NA Percent Positive Testing Rate: 1.74%  
Percent of positive tests over 14 days

NA 14 Day Incidence Rate: 16.7  
Incidence rate is the number of new cases per 100K people. Rates are used to compare data between areas with different population sizes

NA 7 Day Incidence Rate: 22.6  
NA rate taken over the last 7 days

NA Two week Testing Number 4,650  
Number of tests given over 14 days to NA residents, including higher ed

Total # Vaccinated in MA: 4.69M  
People who are fully vaccinated in MA

Hospitalizations in MA: 532  
COVID-19 hospital patients in MA (142 in ICU, 79 Intubated patients)
Items to Note:

1. The weekly case total has increased slightly and our daily average is over 5 new cases per day. We had a daily high of 15.
2. Overall cases went up slightly. Hospitalizations, ICU and intubated patients also decreased since last week.
3. Numbers are trending downwards across the region.
4. NA currently has 0 cases associated with higher education or congregate living.
5. As the weather gets cooler, more sports and activities will be moving inside.

*Please take a look at our indoor sports and activity posting here*

VACCINATED ATHLETES DO NOT HAVE TO QUARANTINE IF EXPOSED BY A TEAM OR CLASSMATE

It is more than highly recommended to get your child vaccinated if they play any indoor team sport.

6. The Greater Lawrence Family Health Center will be holding Vaccination Clinics at the Middle School and High School for ages 12+

   - **NAHS** 11/3 2:20 2nd Dose
   - **NAMS** 11/10 2:20 2nd Dose

You must fill out and bring this [CONSENT FORM with you](#)

7. Pfizer has applied to the FDA for emergency use authorization of vaccine for ages 5-11. This approval may be granted in the beginning of November.
8. Moderna and J&J have received FDA approvals for a booster. All 3 vaccines are approved for a booster shot
