

Habitat for Humanity will make repairs for income-eligible homeowners*

The Critical Home Repair program can help with repairs that will extend the life of your home. Projects like grab bar installation, deck and railing repairs, replacement windows and doors, siding and trim repair, roof leak repairs, and more.

You'll be able to continue to live safely in your home, in the community you call home, near the family, friends and neighbors in your support system.

If your family of two makes no more than \$67,860, you could qualify for these no-cost home repairs. To learn more, see other income limits or to apply, visit: www.essexcountyhabitat.org/critical-home-repair-program/ or scan the QR code above.
